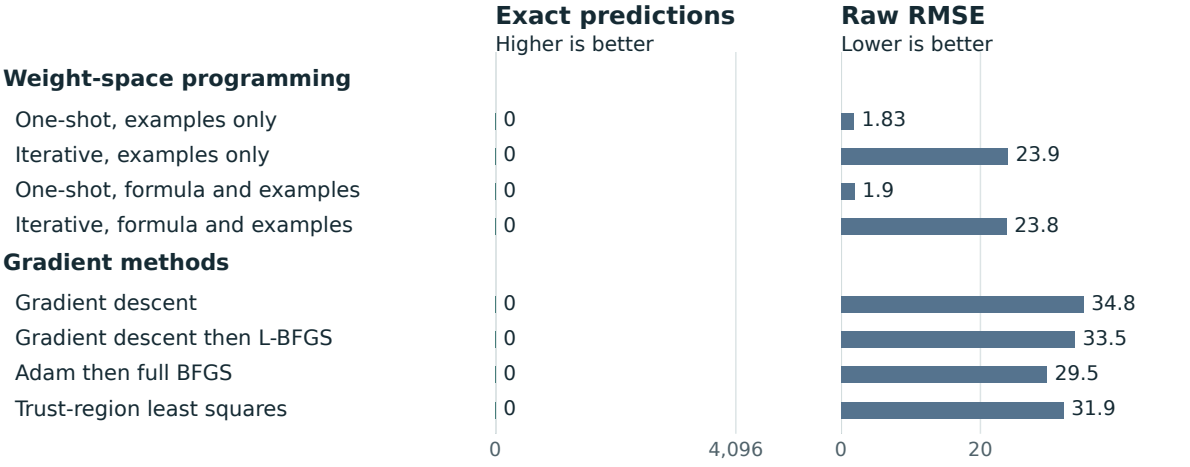
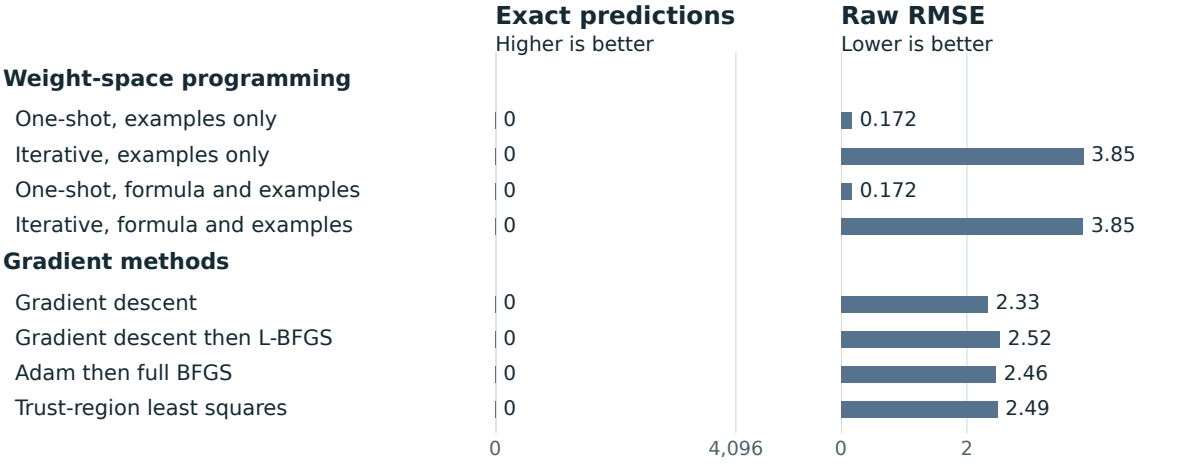
Square

16 hidden units · 50 parameters · 4,096 outer test examples



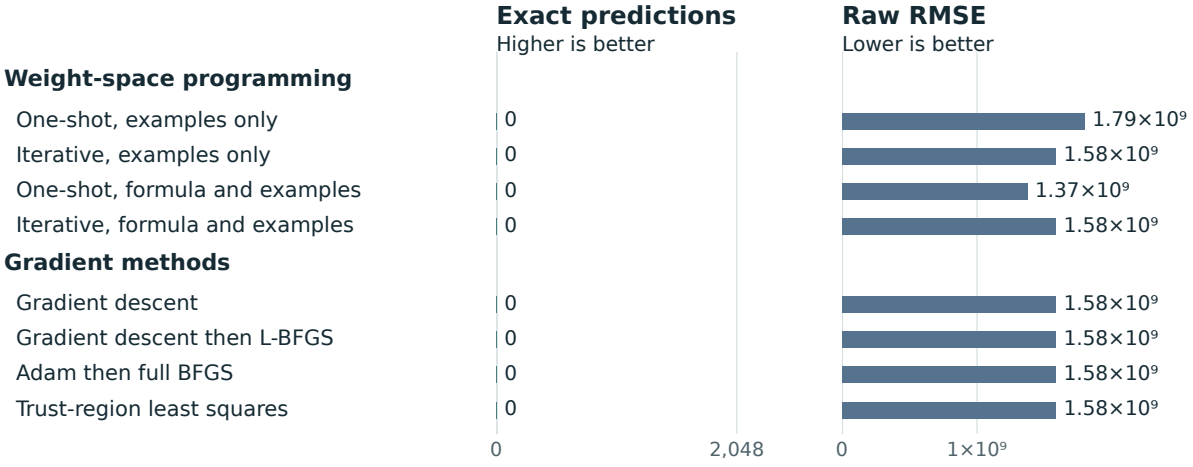
Sine

16 hidden units · 50 parameters · 4,096 outer test examples



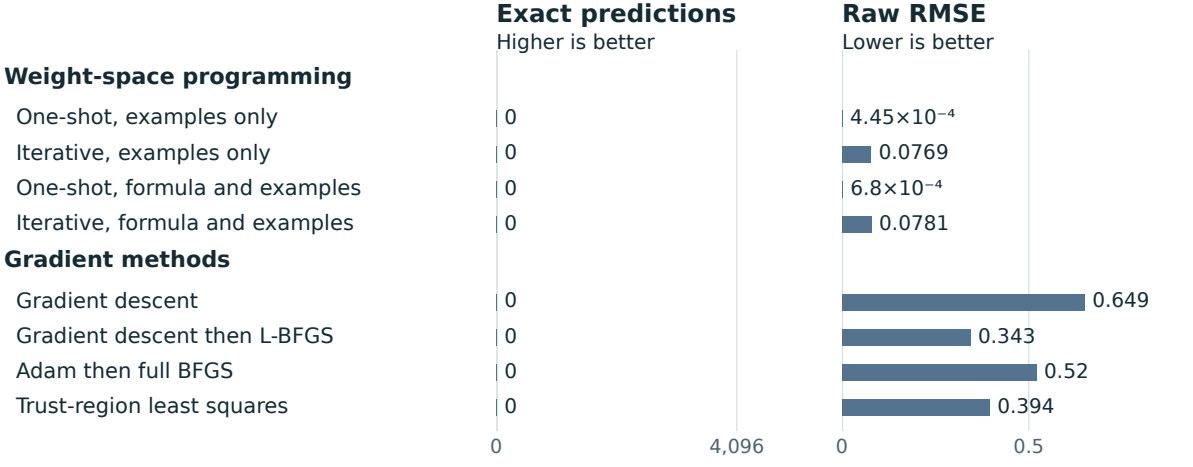
Positive self-power

16 hidden units · 50 parameters · 2,048 outer test examples



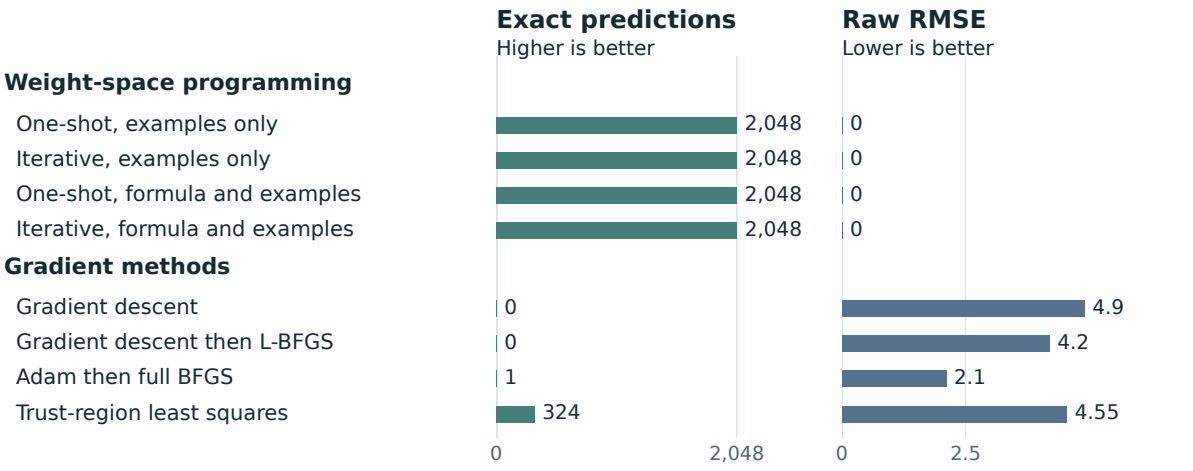
Hyperbolic tangent

16 hidden units · 50 parameters · 4,096 outer test examples



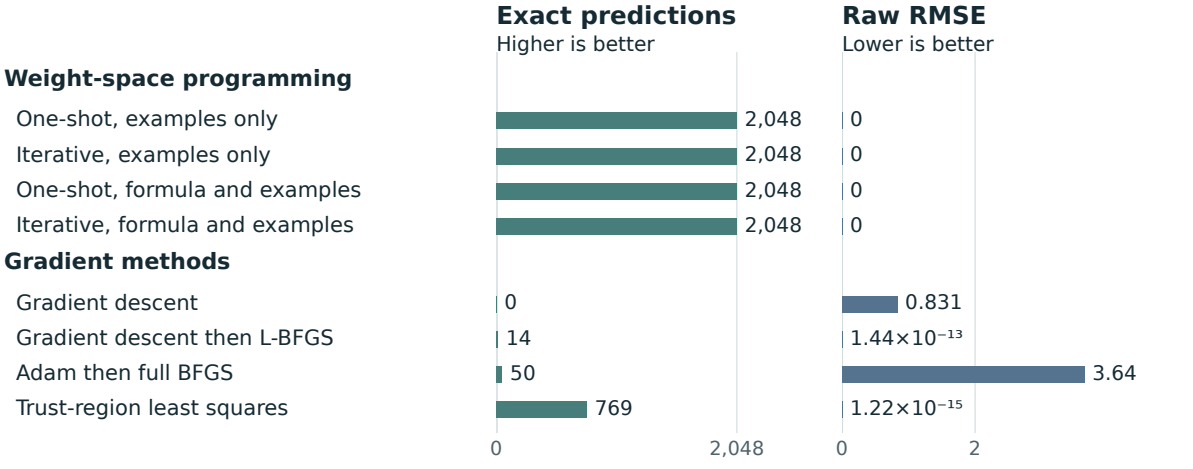
Addition

2 hidden units · 9 parameters · 2,048 outer test examples



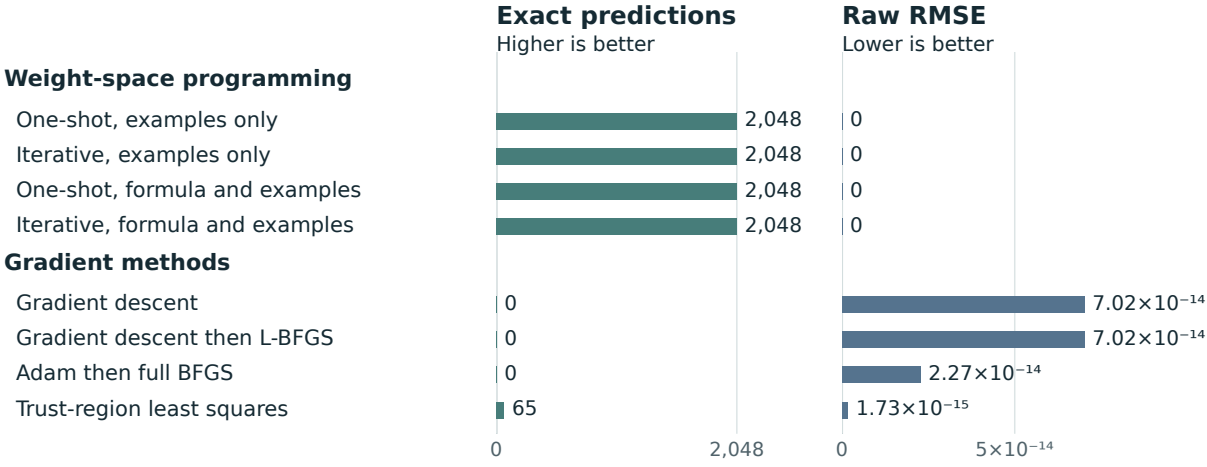
Subtraction

2 hidden units · 9 parameters · 2,048 outer test examples



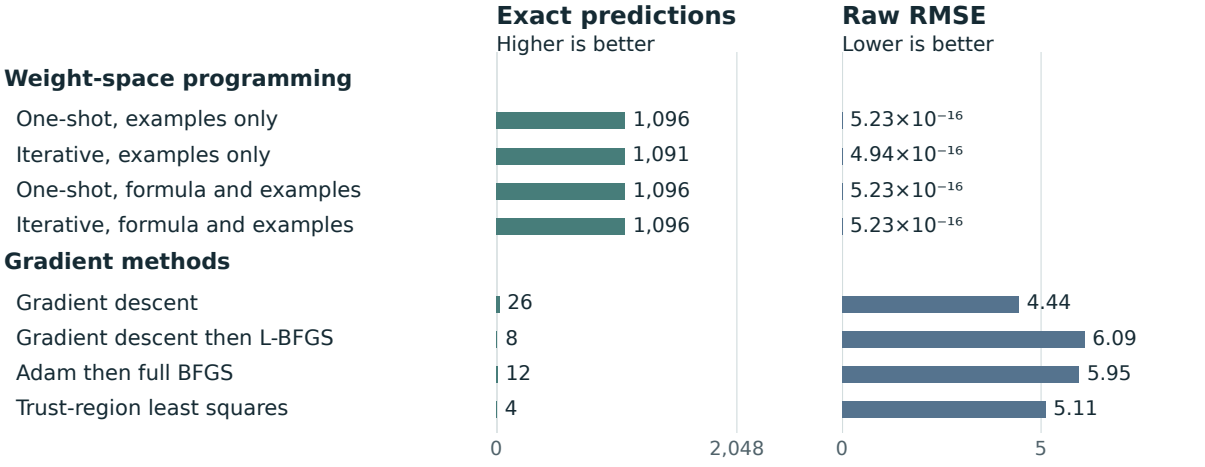
Running sum

1 state coordinate · 3 parameters · 2,048 outer test examples



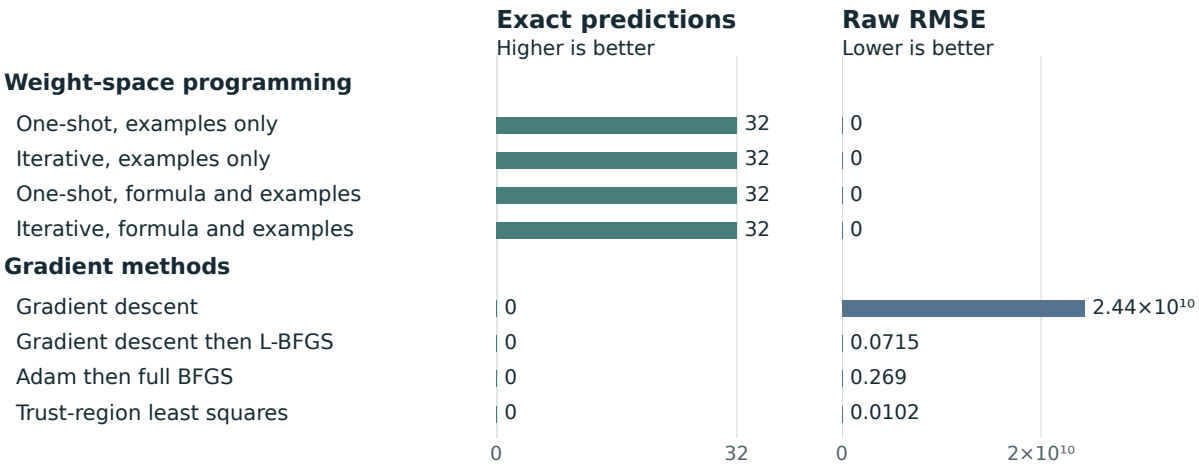
Sort four

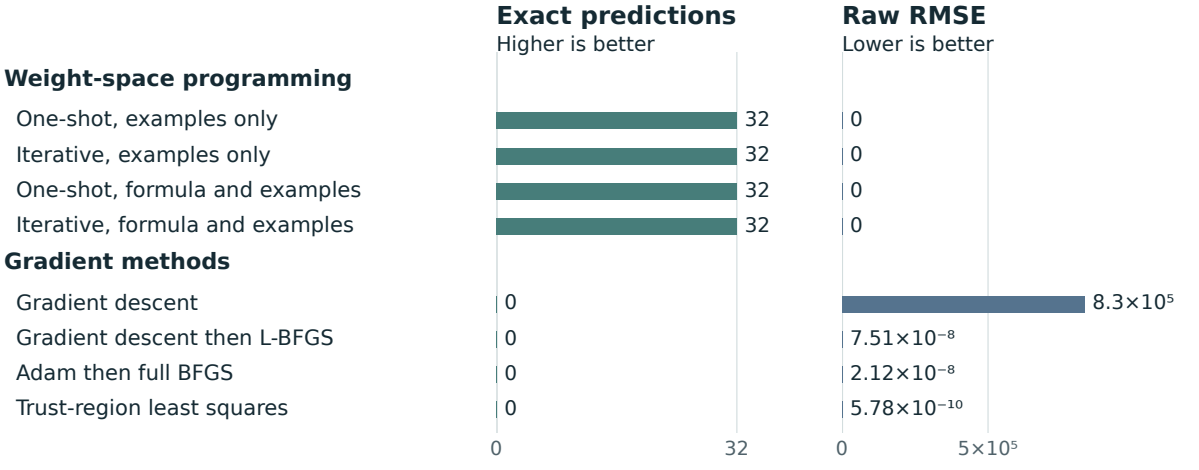
5 residual blocks · 40 parameters · 2,048 outer test examples



Fibonacci

2 state coordinates · 8 parameters · 32 outer test examples



Triangular


3 state coordinates · 15 parameters · 32 outer test examples
